Overview
This written assessment is a two-hour closed-book examination. You will be permitted to use a basic function, non-printing calculator during the examination. The assessment center will provide any necessary pencils. No extra papers, books, notes or study materials are allowed in the testing area.

Study Material
All NCCER written assessments are referenced to Contren® Learning Series modules listed in the content. You may order modules from Pearson (800.922.0579) or from NCCER's Online Catalog at www.nccer.org.

Assessment Development
All questions on each assessment have been developed and approved by subject matter experts from the respective craft. Assessment development and administration is under the direction of Prov™, NCCER’s testing partner.

Credentials
NCCER will send appropriate credentials (certificate, wallet card and official transcript) to the assessment center upon successful completion of the written assessment. Candidates must meet the cut score of each individual topic area within the entire assessment to receive NCCER certification, even if topic area requirements are met for operator qualification.

Training Prescription Reports
Each candidate will have access to individual results of the written assessment from Prov’s website at www.provexam.com. This training prescription will include the overall score and results by topic area.

National Registry
Assessment results will be maintained in NCCER’s National Registry and become a part of each candidate’s training records. These records are stored and become a portable record of the candidate’s training and assessment achievements.

Focus Statement
Control center personnel should be able to monitor and control systems, adjust product flow or pressure, and troubleshoot line balance of the system. They will also be one of the first contacts upon system failure(s) and be responsible for presenting possible problem areas.
